

PROPOSAL

Tanabana All-in-One Ecommerce Launch Package

Prepared for

Tanabana Saree

Rupali Mohete

+91 79723 76110

Project Overview:

This proposal is designed to provide Tanabana with a complete, ready-to-launch e-commerce ecosystem, going far beyond just building a website by creating a fully functional online selling system that enables you to start and manage your saree business smoothly from day one. While the core focus will be on developing a premium, custom-designed Shopify website that reflects the elegance and identity of your brand, we will also take care of all essential setups required to make the store operational, including adding your initial product catalog, integrating a secure payment gateway through Razorpay, setting up and connecting Shiprocket for seamless order fulfillment and delivery, and enabling advanced checkout features such as Razorpay Magic Checkout and partial payments if required. In addition, we will establish key marketing and communication channels by integrating Meta platforms like Facebook and Instagram along with WhatsApp chat functionality directly on the website to enhance customer engagement and trust. To ensure complete independence and ease of management, we will also provide detailed guidance and training resources so your team can confidently handle product updates, order processing, and deliveries. The objective is to deliver not just a website, but a complete, scalable digital foundation where, once the project is completed, Tanabana can immediately start receiving orders, accepting payments, and delivering products without any technical barriers while being fully equipped to grow and expand in the future.

Scope of Work

1. Shopify Website & Theme Development

UI/UX Design:

- Custom UI/UX design created in Figma
- Design aligned with Tanabana’s premium saree brand identity and aesthetics
- Focus on elegant visuals, typography, and color palette suited for fashion/lifestyle branding
- Conversion-focused layout to improve product discovery and sales
- Clear visual hierarchy for banners, collections, and product highlights
- Mobile-first responsive design ensuring smooth experience across all devices

Website Development:

- Development of a custom Shopify theme tailored specifically for the brand
- Creation of custom-coded sections (banners, featured collections, testimonials, etc.)
- No dependency on heavy pre-built themes (ensures performance and flexibility)
- Optimized for fast loading speed and smooth user experience
- Clean, scalable, and maintainable code structure
- Proper setup of homepage, product pages, collection pages, and essential store pages

The Website Will Include the Following Features:

Product Display & Pages:

- Professionally structured product pages
- Product variants (size, color, fabric, etc.)
- High-quality image galleries with zoom functionality
- Pricing, offers, and product descriptions clearly displayed
- Related/featured products for upselling

Collection & Navigation:

- Category-wise product organization (e.g., Silk Sarees, Cotton Sarees, etc.)
- Easy-to-use navigation menu for smooth browsing
- Search functionality for quick product discovery
- Filters (if required) for better user experience

WhatsApp Integration:

- WhatsApp chat button integrated across the website
- Direct inquiry option from product pages
- Helps increase trust and conversion rate

Payment Integration:

- Integration with Shopify for seamless payment processing
- Support for multiple payment methods (UPI, cards, net banking, etc.)
- Optional Razorpay Magic Checkout integration
- Partial payment option setup (if required and feasible)

User Experience:

- Smooth navigation and clean layout
- Mobile, tablet, and desktop responsiveness
- Fast-loading pages

Additional Website Features:

- SEO-friendly structure
- Custom domain integration
- Essential pages setup (Home, Contact, Policies, etc.)
- Premium branding implementation across the website

2. Payment Gateway Setup & Integration

Razorpay Setup:

- Complete assistance in setting up the Razorpay account
- Support for account verification and onboarding process
- Guidance provided online or in-person (if required)

Advanced Checkout Features:

- Integration of Razorpay Magic Checkout (if required)
- Faster and optimized checkout experience for customers
- Setup of partial payment option (advance payment feature) if needed and feasible

Integration with Shopify:

- Seamless integration of Razorpay with the Shopify store
- Enabling secure and reliable online payment processing
- Support for multiple payment methods including UPI, debit/credit cards, net banking, and wallets

Testing & Optimization:

- End-to-end testing of payment flow
- Ensuring smooth checkout experience
- Fixing any issues before website goes live

3. Meta (Facebook & Instagram) Setup & Integration

Account Setup:

- Setup of Meta Business Manager account (if not already created)
- Configuration of Facebook and Instagram business profiles
- Proper linking of all assets under one business account

Integration with Shopify:

- Connecting Shopify store with Meta platforms
- Setup of Facebook Shop and Instagram Shop (if applicable)
- Product catalog integration for showcasing products directly on social platforms

Tracking & Analytics:

- Installation and configuration of Meta Pixel
- Setup of basic event tracking (Page View, Add to Cart, Purchase, etc.)
- Ensuring accurate data tracking for future ad campaigns

Ad Readiness Setup:

- Basic setup required to start running ads
- Guidance on how to use Meta Ads Manager
- Structuring the account for future marketing campaigns

4. Delivery Partners Setup & Integration

Shiprocket Setup:

- Complete assistance in setting up the Shiprocket account
- Configuration of account details and courier preferences
- Guidance through onboarding and verification process

Integration with Shopify:

- Seamless integration of Shiprocket with the Shopify store
- Automatic syncing of orders from website to Shiprocket dashboard
- Centralized order and shipping management

Shipping Configuration:

- Setup of basic shipping rules and preferences
- Selection of suitable courier partners based on serviceability
- Configuration of pickup locations and delivery settings

Order Fulfillment Workflow:

- Setup of end-to-end order processing flow
- Guidance on label generation, packaging, and dispatch
- Tracking and delivery status management

Testing & Support:

- Testing of order-to-delivery workflow
- Ensuring smooth shipping operations before launch
- Basic support and guidance for handling deliveries

5. Additional Support & Assistance

Training & Recorded Tutorials:

- Detailed recorded video tutorials for essential workflows
- Step-by-step guidance on:
- Adding and editing products
- Managing orders
- Processing shipments via delivery partners
- Easy-to-follow content to ensure smooth day-to-day operations

Setup Assistance:

- Hands-on support during Razorpay and Shiprocket account setup
- Online guidance throughout the onboarding process
- In-person shop visit support (2 times if required) to complete setup smoothly

Post-Launch Support:

- 2 months of complete support after website launch
- Includes minor changes, updates, and basic assistance
- Ensures smooth initial operations without technical issues

Ongoing Maintenance (After 2 Months):

- Further updates and management can be provided
- Available on a monthly maintenance plan or per-change basis
- Flexible support options based on client requirements

6. Exclusions (Not Included in Scope)

Following things are not included in the package:

- Cost of Shopify subscription plans
- Domain purchase and renewal charges
- Razorpay, Shiprocket, or any third-party platform fees/commissions
- Paid themes, plugins, or third-party apps (if required beyond scope)
- Product photography, videography, or content creation
- Bulk product uploads beyond the initial 25 products
- Digital marketing services (ads management, campaigns, etc.)
- SEO services beyond basic website structure
- Content writing for product descriptions or policy pages
- Any major design or structural changes after project completion (covered separately)

Project Timeline
